Big Four Council Postpones Session Scheduled Today

“Breathing Spell” Is Provided Apparently “To Let Tempers Cool Off”

REJECT SOVIET REPARATIONS PLAN

By KINGSBURY SMITH
(European General Manager International News Service)

LONDON, Dec. 13.—The Big Four Council of Foreign Ministers postponed its scheduled session today until Monday afternoon—ostensibly to “let tempers cool off.” A breathing spell was proposed by British Foreign Secretary Bevin.

Marshall Plans Luncheon

United States Secretary of State Marshall had extended invitations to a formal luncheon at a moment when collapse of the momentous conference appeared inevitable.

Soviet Foreign Minister Molotov, whose proposal for a moratorium on German reparations had been described as unacceptable by the United States, agreed to attend.

Actually No Concession

Just prior to the postponement, an American delegate pointed out that Molotov’s presumed compromise on German reparations actually was no concession and in view of circumstances could not be accepted.

The delegate made this statement after a meeting of the American delegation this morning at which Secretary of State Marshall presided.

Molotov had proposed that when western Germany’s industrial production reaches 70 per cent of the 1938 level, 10 per cent “could be allocated for reparations.”

The delegate said that a careful study of the proposal led to the conclusion that it does not actually represent a substantial concession on the part of the Soviet Union.

Demand Still Stands

It was pointed out that the overall Russian demand for 10 billion dollars still stands. In addition, the

Annual presentation during the Christmas season of “The Messiah” by the Music Club chorus will take place on Sunday evening at the First Methodist church auditorium. A chorus of 150 voices will share the program, and a huge audience is indicated.

Snowfall of this morning, caused street department forces to ash downtown streets shortly before noon, to make them safe for traffic. The streets had become slippery due to the snowfall and traffic, being quite “glassy” for a time.

Graduate 26 Teachers In Driver's Training School

There were no caps and gowns in The Castleton hotel Friday night, December 12, no orchestra playing the march from “Celeste Jeira” and no families nervously tugging at handkerchieves while junior walked across the stage.

But it was a commencement exercise just the same, the graduation of a group of 26 teachers who had been enrolled in the Driver Training Class sponsored by the New Castle Motor Club and the New Castle school system.

For a week they had been studying the proper way to train future automobile drivers, not how to use the gear shift and brake, but the scores of other elements entering into it, class room study and road demonstrations had been a part of their course and on Friday night they received their diplomas.

This was commencement around the dinner table, an idea that might work well in schools. Alec Samuels, president of the New Castle Motor Club opened the speaking program with a short address of appreciation.

Lewis Again Takes Miners Out Of A. F. Of L.

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 13.—John L. Lewis’ second withdrawal from the American Federation of Labor increased speculation today that the mine union chief may be interested in trying to form a third labor movement.

The chief argument against such an event is Lewis’ age. He is 67, has been ill recently and has carried a heavy burden during the past several years as leader of the mines in some big strikes and wage negotiations.

However, since his clash with AFL officials at the organization’s San Francisco convention last October—which foreshadowed his ultimate withdrawal, there has been talk that Lewis might attempt to build a rival of the AFL and CIO.

Rumors have persisted that the veteran UMW president might use dissident left-wing elements in the CIO to form the nucleus of a new national labor body. The left-wingers served such a purpose when Lewis built the CIO ten years ago.

Rome's Workers Return To Jobs

General Strike Was Called Off At Midnight—New Crisis At Milan

By MICHAEL CHINIGO
(I. N. S. Staff Correspondent)

ROME, Dec. 13.—Rome’s workers went back to their jobs today, but another industrial crisis appeared to be gathering momentum in the Northern Italian city of Milan, where factory employees threatened new disturbances.

Workers at two Milanese factories demanded the ouster of Minister of the Interior Mario Scelba, and hinted at widespread “agitation” if the cabinet member’s dismissal is not forthcoming.

One report said that a movement to oust Scelba is making headway throughout labor unions in northern Italy.

Business As Usual

In Rome, there was “business as usual,” following the two day general strike called by Communist labor groups. The government emerged with new prestige after its success in getting the unions to call off the walkout at midnight.

A communique from the ministry of the interior said that agitators arrested during the Rome strike will be prosecuted. This fact indicated a furtherance of the government’s “get tough” policy.

Union officials had claimed that all agitators arrested during the walkout would be released immediately.

Trolley and bus services resumed immediately after midnight, providing the first visual result of the strike settlement in the Italian capital and province of Rome.

Kennedy Named Vice President Of Lewis' Miners

WASHINGTON, Dec. 13.—(INS)—A mild mannered, former lieutenant governor of Pennsylvania ranks today as John L. Lewis’ heir apparent.

The so-called “crown prince” of the United Mine Workers union is Thomas Kennedy, 60-year-old labor veteran, who presided over the Pennsylvania State Senate from 1935 to 1939.

A meeting of the miners’ executive board chose Kennedy as UMW vice president to succeed the late John O’Leary, who died while attending the AFL convention in San Francisco last October.

Nearly eight years younger than his present chief, Kennedy is in line to direct the destinies of half a million UMW members when Lewis lays down the reins.

Blast Occurs At Damascus Gate Of Jerusalem

At Least Four Arabs Killed And 30 Other Persons Hurt In Explosion

(BULLETIN)

JERUSALEM, Dec. 13.—(INS)—Arab sources reported today that at least four Arabs were killed and 30 other persons were injured today in the explosion of a land mine near the Damascus gate of Jerusalem.

The blast in Jerusalem occurred after it was reported the unofficial truce in the border region between Tel Aviv, all-Jewish city, and Arab Jaffa was broken with a two-hour assault by Jews on the Arab quarter of Manshieh in which one Arab was killed.

Follows Bloodiest Day

The attack, believed to have been carried out by the militant Irgun Zvai Leumi underground organization, followed on Palestine’s bloodiest day since the United Nations adopted the plan for Holy Land partition. An estimated 40 persons died in Friday’s violence.

After the attack on the Manshieh quarter Arabs from the nearby Abu Kheir district joined in the fighting and engaged in general rioting.

(A dispatch to the London Daily Telegraph said that the rioting Arabs attacked a British defense patrol party, killing one British soldier. Three Arabs were said to have been slain by return fire.)

At least 25 Arabs were said to have died in separated Arab-Jew clashes yesterday. The death toll of Jews was placed at 12. The list of wounded was placed at 17.

Miami Beach Scene Of Payroll Holdup, Thugs Get \$19,606

Thugs Accost Two Payroll Clerks On Busc Thoroughfare In Daylight Robbery

MIAMI BEACH, Fla., Dec. 13.—(INS)—Police in Miami Beach intensified a search today for two armed bandits who staged a daring daylight holdup yesterday on a busy street and made off with a \$19,606 payroll taken from two construction company employees.

The payroll clerks, Alexander Mahler and Albert Brosch, had drawn the money from a nearby bank just a few moments before the robbery.

Daring Holdup

They told police they were held up as they reached the company office on busy Washington avenue, where shoppers and bathers were walking just a few feet away unaware of what was going on.

Mahler said one of the hold-up men approached him, drew a gun and forced him into the entrance of the stairs leading to the office.

He added that another armed man joined the lone bandit and the two of them took the two payroll bags and made a getaway in an automobile.

Seventeen Killed As Trains Collide Near Riom, France

PARIS, Dec. 13.—(INS)—Casualties in a head-on collision between freight and passenger trains near Riom, France, were listed today as 17 dead and 20 injured.

The collision occurred a few miles north of Clermont-Ferrand, in south-central France, when the freight crashed into the local passenger train.

Authorities are investigating the possibility of sabotage. Police said that the freight engineer had received a green light on the single track despite the fact his train was running behind schedule.

Officials said there was no immediate indication of sabotage.

First accounts of the disaster indicated that the crash resulted from a signal error, and possibly the failure of the freight locomotive engineer to observe a signal to stop.

Pauley's Views Are In Conflict With Truman's

Some Capitol Hill Democrats Assert That Pauley Should Resign

GRAIN SPECULATION PROBE EXTENDED

By FRANK B. ALLEN
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 13.—Edwin W. Pauley is “in hot water” today with Democratic senators as well as the Senate appropriations committee which questioned him on his wheat market dealings.

Displeased with his contradiction of President Truman’s view that grain speculation causes inflation, some Capitol Hill Democrats said privately that Pauley should resign from his post as special assistant to Army Secretary Royal.

One high-ranking Democrat expressed belief that some legislators probably have suggested to the President that Pauley, former Democratic national treasurer, should leave his Army post.

Will Have to Act

Sen. Young (R) N. D., a member of the appropriations committee, declared:

“I think the President will have to call for Pauley’s resignation if he still believes that gamblers have been kicking the cost of living around.”

After getting an admission from Pauley that 50,000 bushels of wheat were purchased in his name after he took the Army job, and hearing his views that commodity dealings are investments rather than gambling, the appropriations committee turned to a search for other “public figures” in the grain market.

Probe Extended

Chairman Bridges (R) N. H., said the committee will:

1. Look into whether inside information has been imparted by Pauley to other public figures.

State Farmers Demand Limit On Taxing Power

HARRISBURG, Dec. 13.—(INS)—Pennsylvania farmers demanded today the general assembly place limitations on new broad taxing powers enjoyed by municipalities and school districts to effect uniformity of local levies.

The plea was voiced in a resolution adopted by the State Council of Farm Organizations, composed of 30 state-wide agriculture groups, during its annual meeting at Harrisburg. The resolution stated:

“A sound and equitable system of taxation requires uniformity throughout the state.”

Asked To Limit Power

Lawmakers were asked to amend during the next session the local revenue raising law passed this year to limit taxable subjects. The act granted communities unprecedented powers to levy on items subject to but not now bearing commonwealth taxes with the exception of utilities regular by the state.

Most local governments have just begun to apply their powers bestowed with a view toward reducing real estate levies, formerly the chief local revenue source.

Farm delegates also called on Pennsylvania congressmen to support federal appropriations for agricultural research for which state matching funds totaling \$300,000 were appropriated for the 1947-48 biennium.

Fraternity Men Present Unique Yule Program

NEW WILMINGTON, Dec. 13.—A new high in elaborate pre-Christmas serenades at Westminster College was reached last night when the Alpha Phi Sigma fraternity, 100 strong, sang carols beneath the windows of the various co-ed dormitories.

An innovation was a float bearing a large Christmas tree appropriately decorated. A portable power system furnished current for the lights. Riding high on the float was Santa Claus in the person of William Conrad of Pittsburgh, 225 pound football star. Four snowmen completed the impressive scene.

As the chorus sang, slides were flashed on a large screen. The pictures were religious scenes appropriate to the carols.

Then men spent about two hours in carrying out their program. It is customary for the three fraternities to serenade prior to the Christmas vacation which starts next Saturday.

Music Club Chorus Sings 'The Messiah' On Sunday

For the ninth consecutive year Music club chorus will sing at a public Christmas season presentation in the First Methodist church Sunday evening at 8 o'clock. Handel’s oratorio, “The Messiah”.

So well attended has been the presentation of this oratorio for the past several seasons, that special arrangements have been made to assure ample seating capacity for all who wish to hear “The Messiah” sung by this chorus of 150 beautifully trained voices. Three hundred additional seats will be added to augment the church auditorium’s capacity for the performance, which is open to the public.

Mrs. William J. Caldwell is director of the chorus. Soloists are Mrs. Edward O’Neill, soprano, Mrs. William P. O’Neill, soprano, Mrs. William P. O’Neill, soprano.

Four Dead; Two More Wounded; In Gang Attacks

Chicago Gangland Outbreaks Bring Death To Four Last Night

CHICAGO, Dec. 13.—(INS)—Chicago gangland revenge which brought murder, kidnapping and one-way rides into full play ended today with four men dead and two seriously wounded.

The mass shootings started at a South Side garage when ex-convict Thomas Daley, 36, killed 33-year-old John Kuesis to “get even with you for stooping on us.”

Daley, who fired a single shot into Kuesis’ head, was later cornered and slain by police.

After the initial murder, Daley and two accomplices kidnapped Kuesis’ brother Nick, 40-year-old owner of the garage, Frank Baker, 17, and Emil Schmiekal.

Nick and Baker were shot and dumped from Daley’s car into a snow-filled ditch in suburban Brookfield.

Both were found later and taken to a suburban Berwyn hospital, here Baker was given only a 50-50 chance to live.

Bodies Are Found

The bodies of Schmiekal and a reported Daley accomplice, Jimmy Alex, were found just before dawn at suburban Hodgkins on Route 66.

Police closed in on Daley’s neighborhood early today and ridled his body with a machine gun and shotgun blasts as he attempted to escape from the home of Jim Morelli, one of the members of the murder gang for whom an alarm had been broadcast.

Daley was literally blown back into the house by the blasts as he tried to climb out a window.

Previously, police arrested Low-ell Fentress, 19, at his West Side hotel, Fentress, who was alleged to have been with Daley when John Kuesis was killed, named the gang leader and Morelli as the trigger men in the shootings. He also gave police officers Morelli’s address.

France Deports All Members Of Soviet Mission

All Who Decline To Leave Voluntarily Are Escorted To Soviet Zone

PROTEST NOTES SENT BY RUSSIA

By ROBERT PARKER
(I. N. S. Staff Correspondent)

PARIS, Dec. 13.—The French government deported today all members of a Soviet reparations mission who had declined to leave the country voluntarily.

An official announcement said they had been taken under escort into the Soviet zone of Germany. Inspectors of the Surete National carried out the deportation.

New Soviet Protest

This move took place almost simultaneously with a new Soviet protest to France against the alleged arrest of Soviet citizens in Marseille in connection with the recent Communist-led strike wave.

The Russian note demanded the immediate liberation of the arrested persons.

The Soviet embassy in Paris announced that Charge d’Affaires Alexandre Abranov, has presented to Hean Chauvel, secretary general of the French Foreign Office, an “energetic protest” against the arrests.

The three previous notes protested against French treatment of the Soviet reparations mission in France, the expulsion of a score of Russians accused of meddling in French internal affairs, and announced the ousting of France’s reparations commission from Russia and the halting of Soviet-French trade negotiations.

Charge Russians Shielded

The Soviet embassy in Paris meanwhile was charged by Andrew Francois-Poncet, former ace diplomat, with shielding numerous Russian citizens whose activities would be difficult to explain.

Francois-Poncet, writing in the conservative newspaper Le Figaro, asserted that the Soviet embassy “shelter and covers with abused immunity one or two dozen citizens, not including in its list of members and whose activity the embassy would find difficult to explain.”

Pierre Olivier Lapie, former under-secretary of state of the French Foreign Office, writing in the newspaper Le Populaire, suggested that the French government

PHILIPSBURG, Pa., Dec. 13.—(INS)—State police were investigating the shooting of Jack Harris, 17, of near Philipsburg, who was wounded seriously early today while walking through a field near his home.

The commentaries were published in the wake of a flat rejection by France of another Russian protest to the Paris government which demanded a reason for the expulsion of a score of Soviet citizens accused of interfering in French internal affairs.

Dr. G. Kepner Mills of the New Castle school system who has had charge of the school for the New Castle school system presented the certificates to the class. Students were there from as far as Elliptown, N. Y., and Philadelphia, Youngstown, Uniontown, Conneville, Beaver Falls and other places.

Dr. Amos Neyhardt was the concluding speaker. He is a recognized authority on highway safety and in addition to being on the faculty of Penn State is a Road Consultant for the American Automobile Association. He told of the growth of the driver-trainer school idea and said that in districts where schools had been placed the accident rates had fallen. By fact and illustration and humor he drove home his points. It was a commencement address off the usual academic line but one that got across.

government officials or employees to outside speculators—which Bridges said "may be the most important part of the investigation."

2. Call on Agriculture Secretary Anderson for his list of "public figures" which Anderson said he could name as commodity speculators.

Bridges said that the committee already has asked J. M. Mehl, director of the Commodity Exchange Authority, for the list of heavy speculators he prepared for Anderson, and that Mehl refused to disclose it.

The appropriations chairman declared that if Anderson also refuses "it would be the basis for turning the whole thing over to another committee" for investigation.

Seek Speculation Facts
Bridges explained that the appropriations committee is too busy to handle any extensive inquiry into the wheat gambling issue.

The Pauley inquiry is being shelved temporarily while the committee calls on the Commerce, State, Treasury, Navy and Defense secretaries for reports on speculation by their personnel.

Meanwhile, Pauley is to submit his private books showing his commodity market transactions before and since he took the Army job.

The wealthy California oil man testified that he sold 90 per cent of the half million bushels of wheat he held when he took the Army job last September at \$100,000 less than the wheat now is worth.

BIG FOUR COUNCIL POSTPONES SESSION SCHEDULED TODAY

proposed moratorium would be applied only to the western states, with no indications that the Russians would be prepared to accept western conditions for German economic unification.

Earlier, optimism had been expressed in American circles over Molotov's acceptance of a luncheon invitation from Marshall. The Soviet minister was scheduled to dine with the American statesman at the United States embassy.

Conference May Collapse
However, the news of the United States' rejection of the moratorium proposal renewed speculation that the collapse of the conference was imminent.

Since economic experts estimate it will be at least five years before production is increased to that level, the Molotov suggestion seemed to indicate a Russian willingness to agree to a moratorium.

Marshall will, if the opportunity presents itself, seek a clarification of Molotov's plan which also may come to the foreground at today's council meeting.

WHAT'S RIGHT WITH THE UNITED STATES!

Millions of Americans seem to be apathetic toward charges that there is something basically wrong with our governmental and economic systems, and that socialism, communism and the rest of the assorted isms have more to offer.

Edward C. Sammons, president of the United States National Bank of Portland, Oregon, touched on that vividly when he said:

"Our country is the only nation in the history of the world that has continued with its intrinsic, basic type of government since its beginning 170 years ago. . . . In those 170 years our 6 per cent of the world's population produced 25 per cent of the world's goods and possesses 50 per cent of the world's wealth. In no other country is there such opportunity as here.

"Too many people are saying what is wrong with America. Instead, we should be saying what is right with the United States. Why should capital be on trial here? Why should not socialism or communism instead be on trial, when our people are asked to provide the money and the food and tools for other nations to carry on?"

"In my time we have defended our country three times from outside invaders, but we are not defending it sufficiently from within. The working man here is able to live almost as well as a king compared with those in other countries. Other systems promise. Our people have!"

That is a fundamental truth. The American people should shout from the housetops their faith in a system that has given them unprecedented tangible benefits—and, infinitely more important, the intangibles that make for a life of freedom.

CONTROLS FOR ALIENS

New regulations tightening controls over aliens visiting the United States have been instituted by the government. They are long overdue.

Probably no country in the world has kept such a loose check on visiting aliens as the United States. Heretofore the arrival of an alien has been known only to district immigration authorities at the port of entry. And frequently the whereabouts and activities of aliens were lost track of completely. In many cases such inattention made no difference. In some it made plenty.

Now the situation is to be changed to some extent. Henceforth responsibility for an alien's whereabouts will rest on the district immigration officer of the section of the country through which the alien is traveling. Aliens will be required to report to immigration officers in the various districts. In cases where suspicion is aroused, the Federal Bureau of Investigation will be informed.

Laxity of alien controls long has been a matter of concern to immigration authorities. The new regulations are expected to do much to plug loopholes, but there is more than a little room for belief that they still do not go as far as they should.

GAMBLERS GENERALLY LOSE

Do you want to die in one of the most horrible manners possible? It's an easy trick. Just take chances with fire and, sooner or later, your number will come up.

More than 10,000 Americans die that way each year. Thousands more are disfigured for life. Fire is an extremely efficient killer and maimer.

The ways to take chances are legion. Smoking in bed is one of the best. So is doing home cleaning with flammable liquids. So is starting fires with kerosene and gasoline. So is carelessness with illuminating gas.

In addition, all the usual home hazards are responsible for their share of deaths. Faulty electrical wiring and equipment; closets, attics and basements full of paper and other junk; overloaded and improperly maintained heating stoves and furnaces—these are all dependable killers, and in addition they are responsible for the destruction of tens of millions of dollars worth of property each year.

Fire is rolling merrily along in the United States now. The total loss is at an all-time high and it is increasing. There seems to be no end to our carelessness and indifference. This may keep the fire departments on their toes—but, unfortunately, there's a limit to what the best of them can do.

Take a chance with fire—maybe you'll be lucky. And maybe not!

Inflation seems to have hit everywhere. The former dime chain letter has gone up to two dollars.

It is estimated that more than 300,000 cigarettes are lighted every minute, but it is not revealed how many of them burn table tops.

It will cost \$40,000,000,000 to run the federal government next year. The old-fashioned watchdog of the Treasury must be on relief.

Scientists say they have heard music from the sun. Petrillo can now be expected to demand stand by musicians, or to start picketing Old Sol.

In View Of News Of The World

By J. C. Ostreicher, INS Foreign Director

The moderate forces in Italy are bent on duplicating the feat of the moderate forces in France where a Communist strike challenge has just been licked, at least temporarily.

And this situation threw the spotlight upon two men of somewhat similar intellectual backgrounds who have had to pit frail strength against some of the most violently rough and tumble crises their countries have ever experienced in peace time.

One is Robert Schuman, the one-time banker from Lorraine who is premier of strife-torn France.

The other is Alcide de Gasperi, a former teacher, who is trying to restore and maintain order in troubled Italy.

Both Modest Men
Both are modest men born with a natural tendency for self-effacement. But both have found themselves able to use strong and determined measures—so much so that in many cases they have taken Communist strike agitators by surprise and have beaten them at their own game.

De Gasperi, of course, is old in political battling by now. For Italy has had many troubles since the fall of Fascism and the end of the war, and De Gasperi has been in the thick of them.

But he has made it known on more than one occasion he would like to have the job of premier in the hands of someone else and were it not for his deeply conservative feelings and his Catholicism he might have stepped down long ago.

Strange Role
De Gasperi's almost strange role in politics is highlighted by the fact that for many years he was a librarian at the Vatican.

Nothing could be further removed from the hurly-burly of politics than the cloistered book-rooms of the Papal palace. It is very likely that Dr. De Gasperi frequently turns longing eyes toward St. Peter's square and wishes he could drop his present onerous burdens for a more peaceful life.

Schuman probably does not relish his job greatly either, despite the prestige that attaches to it.

He always had specialized in finance and was highly regarded for his sound advice and teachings in time of distress. But he never sought power actively and except for a brief visit to Washington on a financial mission some time ago rarely played a part in truly international affairs.

Fate put both these men in

their highly responsible positions at moments of gravest emergency. Whether the progress they have made thus far embraces any real permanency is impossible to say at the moment. The Communists have decided to continue the fight in Italy, and in France they have not abandoned their battle entirely although the strike wave has ended.

But two men of quiet disposition and cultured background have shown that even librarians and financiers can stand up to an emergency when they have to.

Looking At Life

By Erich Brandeis

The 1947 year book of the United Nations has just been published.

You may have it for ten dollars. It contains almost 1,000 pages with goodness knows how many thousands of words and it contains many of the speeches that have been made, in addition to much other information.

The Bell Telephone System has just announced that there are 39.03 telephones per hundred of population in Los Angeles; 44.48 in San Francisco; 41.08 in Washington; 35.98 in Chicago and so forth.

On my desk are six invitations asking me to attend meetings at which "important speeches" will be made, and two asking me to make speeches.

And from Chicago comes a dispatch stating that there is a dog named Sam who has been taught by his master to talk.

He can say only one sentence. And what do you think it is?

I want it.
The one thing I have always liked about dogs is their selfishness. They seem to be satisfied with anything they are satisfied for them—and even if they do very little, they still adore them. So, when this Cicero (Ill.) dog is taught to come a little closer to the intelligence of the human being he is taught one of the human's most characteristic shortcomings: "Gimmie."

When I read about all these volumes of words, those millions of telephones over which millions of words are spoken, when I think of all the meetings that are being held and of all the speeches that are being delivered at those meetings, I think of my doctor.

Having gone to a number of dinners and luncheons recently, I developed quite a case of indigestion and so I asked the doctor to give me something for it.

"You don't need any medicine," he told me. "All you need is a sensible diet and a little more judgment of how and what you eat."

"You don't need any medicine," he told me. "All you need is a sensible diet and a little more judgment of how and what you eat."

I think it would be a good idea if all of us went on a diet of speaking and used a little more judgment of what we say.

There is entirely too much talking. In the United Nations there is a decided case of oral indigestion, and I dare say that all those telephones all over the country have caused more indigestion to the mind than the food eaten by the talkers has caused to their stomachs.

And you, who read this item about the talking dog of Cicero, please don't teach your dogs to talk.

Because, alas, too much of all the talking that is done all over the world can be summed up in this dog's vocabulary of three words: "I want it."

Words Of Wisdom

Gaiety and a light heart, in all virtue and decorum, are the best medicine for the young, or rather for all. Solitude and melancholy are poison; they are deadly to all, and above all to the young.—Talfourd.

Hints On Etiquette

If you are carrying a long umbrella, do be careful not to spear anyone with it. If you carry an umbrella with a traveling bag with the umbrella held in a horizontal position, it is likely to poke people behind you.

When you've come to the end of nerve-racking day, and your soul is embittered with sorrow, do you creep off alone, or to waiting give way—Remember, my friend, there's tomorrow.

When your back's to the wall, and your money's all gone, and there isn't a cent you can borrow, do not think it is seemly to cringe, or to fawn—Remember, my friend, there's tomorrow.

When the Goddess of Chance has called off her care, as you find to your infinite sorrow, do not play like a fool, or give up in despair—Remember, my friend, there's tomorrow.

When your enemies bury you deep with abuse, and your friends pass you by in your sorrow, if you buck up, and fight, they will all cry for a truce—Remember, my friend, there's tomorrow.

Washington Calling

Hoover Defines F. B. I. Policy

NEW YORK, Dec. 13.—Some time ago attention was called in this column to a statement by Clifford J. Durr of the Federal Communications Commission. In that statement Durr expressed concern over "unsolicited" reports from the FBI on persons connected with the radio industry.

This seems to have stirred a considerable controversy. Sen. Homer Capehart of Indiana has made a belated demand for a congressional investigation of what he calls an attempt to "sabotage" the work of the FBI.

It goes without saying that Durr had no such intention. He was concerned, as many Americans are, with the current near-hysteria over communism that seems at times to be meant to intimidate all those who do not hold the narrowest and most conservative views.

Policy Stated
J. Edgar Hoover, head of the FBI, in a letter to me, has stated clearly the policy of the FBI. I want to quote the pertinent part of that letter:

"First of all, let me assure you that at no time has the bureau attempted, in any manner of degree, to influence the decisions of the Federal Communications Commission. As a matter of fact, the bureau has no official interest whatsoever in the decisions or administrative policies of the FCC.

"The bureau, however, during the course of its investigations of allegations of violations of federal statutes, receives a considerable amount of miscellaneous information which relates to the operation of other government agencies. It is obviously impossible for the bureau to evaluate the significance of much of this information or its effect upon the contemporary policies and programs of those agencies.

Does Furnish Information
"As a result, the bureau does furnish to various government departments such information as it receives which appears pertinent to the operations of those government departments. Insofar as is practical, the bureau attempts to evaluate the reliability of the source of such information without attempting to make any suggestions whatsoever as to the use which should or should not be made of the information itself. I sincerely believe that the bureau would be subject to justifiable criticism if it withheld information of this kind from other government agencies or attempted to evaluate the significance of such information or attempted to indicate what action should be taken upon the information.

"I believe it is the responsibility of the individual government department to evaluate and take appropriate action on such information as is furnished by the bureau rather than for the bureau to attempt to determine whether this information is or is not important or pertinent to current programs or problems of individual government departments, with many of which the bureau cannot even be currently acquainted.

Further Advises
"I desire to advise you further that at no time has this bureau

initiated investigations' which pertain to the propriety or impropriety of the Federal Communications Commission's taking action upon any matter pending before that commission. The bureau does not 'initiate' investigations of this kind but confines its operations solely and exclusively to the discharge of those responsibilities placed upon the bureau by congress."

This says emphatically what Hoover has often said before, both publicly and privately—that he has no desire nor intention to make policy in these matters. He is a technical agency carrying out the directives of the several branches of the government.

It seems to me reasonable that he should pass on to other agencies information he considers relevant to their operation. If the other agencies consider this information irrelevant, or even foolish and baseless, as Durr stated, that is not the concern of the FBI, which has discharged its duty.

Should Understand Functions
It seems to me important that the public should understand the true function of the FBI. Perhaps in this connection a congressional investigation might serve a useful purpose.

Such an investigation would be useful only if it were aimed at getting all the facts. Sen. Capehart sounded as though he wanted merely to get another broomstick and start riding off through the night sky.

"Eternal vigilance is the price of liberty." That is as profoundly true today as it was when it was first uttered.

The A. Mitchell Palmer raids after World War I were a shocking disgrace. They violated the fundamental freedoms guaranteed under the great charter of our liberties. That rash and hasty action has been the occasion for later regret. Foresight and awareness today can prevent such unhappy errors.

Great Game Of Politics

The Great Bureaucratic Lobby

WASHINGTON, Dec. 13.—CERTAINLY, the great 1947 economy drive of the Republican was a disappointment. True, they cut governmental costs, perhaps, two billion dollars. But, they fell far short of their goal of six billions. This disappointed not only the Republicans but that pioneer Democratic reduction advocate, Senator Harry Byrd, of Virginia, and every citizen everywhere justly appalled at the size of the vast governmental machine, its terrific burden on the taxpayers and the inherent waste and inefficiency.

WE are now told by Representative Christian Herter, one of the ablest and most sincere members of Congress, that the fight will be renewed in the regular session. This is heartening news. Never before has so much money been wasted nor economy been more vital. No sane man possibly can contemplate our present and prospective commitments abroad and remain unconvinced of the utterly indefensible nature of unnecessary dollar expenditure at home. Before the next economy battle begins it seems essential there should be the widest and clearest possible public understanding of why the 1947 effort achieved relatively so little success. The reason is very simple. It was the skillful, determined and often unscrupulous resistance of the Federal bureaucracy, which Mr. Herter correctly describes as the most powerful and potentially the most dangerous lobby of them all.

DEPARTMENT by department, commission by commission, board by board, bureau by bureau, it battled every move not only to curtail but to prevent expansion. Working through its vast army of jobholders and buttressed by a great tax-financed publicity machine, it misled and misinformed many citizens and brought to bear an almost irresistible pressure. It did not scruple to distort and misrepresent the facts, and it shamelessly ignored the law which forbids Federal employees to try to influence legislation by Congress.

NOTHING like this demonstration of power had ever been seen in Washington. The Federal bureaucracy machine had never really gone into action on such a scale. This time it went the limit. A sample cited by Mr. Herter was the literature sent out by the National Customs Service Association to the jobholders in clear violations of the law. These were told "it is a case of life and death. Don't pull any punches. Contact newspapers, chambers of commerce, business houses, veterans organizations, railroads, steamships, politicians, the governor, the mayor of every city, all state and city officials, everyone who can help. . . . If the customs border patrol and port patrol are abolished, it will be a gold-plated invitation to the smugglers to go to work." This customs incident was perhaps the most flagrant of them all, but, nevertheless, typical. What happened was this—the House committee investigations had shown the Customs Bureau of the Treasury to be in very bad shape—filled with unnecessary and inefficient men. Yet, the bureau asked Congress for an increased appropriation.

THE House did not give the bureau less money for its essential services but more. However, it did refuse to give it all it asked. At once, with a blare of publicity denouncing Congress, the commissioner of customs laid off 85 per cent of all employees charged with the job of guarding our ports and borders. This was sensational. There was a great public outburst. Newspapers, radio, columnists, labor bosses and the movies all played it up as a shocking instance of the "penny pinching" of a partisan Congress. Letters and telegrams, many inspired and identically worded, blaming the committee for "crippling" a vital service deluged senators and representatives. When the truth was finally brought to light, it was shown that the layoff was a planned piece of dramatics; that there was not the slightest excuse for it; that nearly all the laid-off officials had quickly been reinstated. Regret was expressed by the Secretary of the Treasury and the commissioner of customs was temporarily removed. But it was too late to counteract the lies.

MANY other instances of similar character are given by Mr. Herter. He asserts that with the exception of the Reconstruction Finance Corporation, not a single bureau gave so much as a trace of co-operation. On the contrary, they joined in a resistance that was almost overwhelming and wholly illogical. Of course, what this gigantic and organized jobholders army did could not have been done without tacit approval, amounting to encouragement, from the White House. Every bureau head knew that Mr. Truman was opposed to any cut at all in his 37-billion-dollar budget. With that knowledge the correctly assumed they could go to any extremes in their own opposition—which is certainly what they did. And Mr. Truman uttered no word of disapproval—quite the contrary.

CONSIDERING the facts as presented by Mr. Herter—and concurred in by Senator Byrd—it is hard to blame the Republicans for not having achieved more. The remarkable thing is they got anywhere at all. The character and power of this Federal bureau lobby has not been clearly understood by the American people. Senator Byrd has stressed it for years. Others have written about it. But not until the last session was such overpowering evidence of its strength given. Unchecked in its inherent tendency to expand, inevitably it will break down our system. No one can doubt that. In the new fight it at least should be compelled to observe the law. And it would seem the least the President can do is to refrain from encouraging its violation.

Start Work On Films For Navy

STATE COLLEGE, Pa.—(INS)—Educators at the Pennsylvania State college have started for the U. S. navy a project designed to produce more effective educational sound films.

In accordance with a contract let to the college by the Office of Naval Research, U. S. navy, an attempt will be made to determine the principles which govern the scientific and effective use of sound motion pictures.

"Much precious time might have been saved during the war if we had known more about the use and production of effective educational films," Dr. C. R. Carpenter, professor of psychology at Penn State and director of the project, explains.

Dr. Carpenter points out that before B-29's were available, it might have been possible to use films effectively to train the crews in the operation of the ships instead of waiting until enough planes for training purposes had rolled from the assembly lines. The same thing might have been done in regard to other new equipment.

To Establish Library
Types and characteristics of films already produced will be analyzed and evaluated and pertinent literature and information will be reviewed so that psychological, educational and technical developments which already have been established, can be further developed.

A specialized and highly selected reference library will be established in connection with the project. The material assembled as well as new information obtained through research will be made available to the navy and other government agencies through an information center.

Men working on the project also will try to determine what subject matters and themes can be most effectively presented by means of sound films and will investigate perceptual and attentional processes involved in learning and observing from films.

After work has progressed sufficiently, an attempt will be made to establish the requirements for producing "ideal" sound films which would be adequate for "complete" instruction in the shortest possible time.

BRINGING GUEST TO PARTY

Question: I have received an invitation to a party to which I am very anxious to go, but I have an out-of-town guest staying at my home. May I ask if I may bring him along, or must I send my regrets, and stay home?

Answer: You may properly ask your hostess for an invitation for your out-of-town guest. Explain your predicament to her and I am sure she will tell you to bring him along. An extra man is always welcome at a party. If your invitation were to a luncheon or a dinner, there would be a different light on the problem. Never ask for an invitation to a meal for anyone. This would call for an extra place at the table, which would no doubt result in inconvenience for everyone.

Question: My employer's mother, who lived with him, just died. I have been to his house for dinner several times and knew his mother slightly. How should I show my sympathy?

Answer: Call at once at his home and ask for him, offering your sympathy if he receives you. If your relationship is more formal, simply leave at the door your card on which has been written: "With sympathy" or write him a letter of condolence. Send flowers to arrive the night or morning immediately before the funeral.

Question: I am planning an informal luncheon and bridge. May I, correctly, serve luncheon on the bridge tables?

Answer: Your informal luncheon before your bridge may be served on the bridge tables or on the dining room table, according to your choice. If you use bridge tables for this purpose, they must be set with small doilies used especially for luncheons. You may also, if you prefer, serve a buffet luncheon placing your food on the buffet or sideboard in the dining room, allowing your guests to help themselves.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers inclosing stamped self-addressed envelopes.

New 'Pest Control' Plea Is Issued

HARRISBURG, Dec. 13.—(INS)—A new "pest control" plea was issued today by State Agriculture Secretary Miles Horst to reduce production losses hampering the food conservation program.

He told the state council of farm organizations during its annual

meeting at Harrisburg that Pennsylvania farmers suffered \$15,000,000 annual crop damages from rats and insects and that a fifth was caused by the European corn borer.

Food producers were urged to attack weeds and plant and animal diseases as well as rodents and insects to overcome avoidable losses.

Admiral Nimitz Retires Monday

Famed Veteran Wartime Commander Of Pacific Fleet Sorry To Be Getting Through

WASHINGTON, Dec. 13.—Adm. Chester W. Nimitz, who leaves active naval service Monday, said today that "it is hard to say goodbye to the career which has meant more to me than can be put into words."

Nimitz, famed wartime commander of the Pacific fleet, retires as chief of naval operations. His remarks were included in the American Broadcasting company's N. S. navy band program. The ranking navy officer said:

"In a way, this occasion is a sad one for me, because in a very few days I will no longer be on full active duty."

Almost 50 years

Recalling his experiences after almost 50 years of service, Nimitz declared:

"There were other crucial campaigns in the Pacific, but my confidence in the officers and men I had the honor to command kept me from worrying. I doubt if any other naval commander in history has been more fortunate in this respect."

Nimitz said that World War II has demonstrated "beyond all doubt" the value of maintaining a navy capable of fighting on, above and below the sea. He said: "American seapower will always stand between this country and attack from without."

Identify Young Woman In Hospital As Virginia Hill

PHOENIX, Ariz., Dec. 13. — (INS)—A young woman under treatment at the Good Samaritan Hospital was identified today by Chief of Police Earl O'Clair as Virginia Hill, girl friend of the slain gangster, Benjamin (Bugsy) Siegel.

O'Clair made the identification despite a denial by the hospital that the patient listed merely as Mrs. Hill is the Alabama beauty in whose Beverly Hills home the gambling czar was "rubbed out" last June.

The police chief said he was convinced after a personal visit to her hospital room and an examination of pictures that she is Siegel's girl friend.

She is there recovering from what authorities said was another attempt—her fifth—to end her life with an overdose of sleeping tablets.

Her presence in the hospital became known early yesterday when two Phoenix police department detectives, Vic Stewart and Charles Murphy, called at the institution and warned the staff of a possible attempt on her life. They told hospital attaches that the Chicago underworld was "after" her.

GEORGE E. LYON

A long-time resident an educator of the city, George E. Lyon is still most active as owner and teacher at the New Castle Business college, South Croton avenue.

Mr. Lyon, who purchased the business institution in 1912, still teaches at the school and oversees its functions although the bulk of the administration is in the hands of his son, George Crawford Lyon.

George Lyon was born in Howell, Mich., in 1873, the son of Mr. and Mrs. Walter Lyon, and spent his boyhood in the midwestern state before coming to New Castle. He attended Ferris Institute at Big Rapids, graduating in 1904, and worked as an accountant for a sugar company in Alma, Mich., for one year. He came to this city July 1, 1906 and worked at the business school which was then owned by L. L. Smith.

Leaving the city for two years, on his return he bought the school (which had changed hands once during his absence), and began his role of owner-instructor.

Small Enrollment

At that time the enrollment was small and the curriculum limited, with concentration on accounting. At the present time the school has some 150 students, studying in round-the-clock classes, both day and night, and has grown to include such offered subjects as typewriting, bookkeeping, dictaphone instruction, short-hand and the use of all modern business machines such as comptometers, etc.

Two Children

Mr. Lyon married the former Pearl White of New Castle in 1911 and has two children, the aforementioned George Jr., and Howard White Lyon, a student at the University of Pennsylvania where he is studying law. There is one grandchild.

Testimonial For Marie Dutkiewicz

Tribute Planned For Musical Director Of St. Philip And James Church

Many years of devoted service to her church will be marked Sunday, Dec. 14, when Miss Marie A. Dutkiewicz, music director of St. Philip and James church, will be tendered a testimonial. The testimonial will be a dual one, the first part consisting of a solemn high mass at 11 and the second a theatrical and musical program in the parish hall.

The solemn high mass will be celebrated with Rev. V. V. Stancelewski as celebrant, Rev. J. Lavell as deacon, Rev. W. Kosin as sub-deacon and Rev. J. Lavell delivering the sermon. There will be a testimonial march and special music.

Musical Program

The afternoon session will open at 3 o'clock, with Rev. Stancelewski in charge. A pageant, "Musical Harvest," will be presented depicting the highlights in the career of Miss Dutkiewicz. The cast will be composed of the school children and the church choir.

This will be followed by greetings from visiting priests and laymen, with another piece of pageantry, "Progress," being depicted. The kindergarten and ensemble will join in a testimonial and the program will close with the benediction and "God Bless America".

Miss Dutkiewicz was born in Pittsburgh where she studied piano at the Pittsburgh Musical Institute under Dr. A. Freni. Upon coming to New Castle and assuming her duties as organist of St. Philip and James she continued her studies with Garth Edmundson, took a post-graduate course in Westminster college, and in 1938 spent a summer in Poland studying Polish folk dancing.

Many Activities

She has directed over 200 theatrical performances in New Castle and surrounding cities and has composed a number of Polish operettas. Aside from her busy life in music she has been the leader of Girl Scout troop 19.

In recognition of her abilities and her activity in the church, Miss Dutkiewicz has had bestowed upon her by Pope Pius XII a special apostolic benediction.

The day's activities will be a gracious recognition of a career of service to St. Philip and James church.

New Castle Hotel Co. Stockholders To Get Dividend

Stockholders of the New Castle Hotel company, the operating company of The Castleton, were notified today of a dividend of \$1 per share for each share of the preferred stock.

This is the first dividend ever paid by the hotel and comes as a welcome Christmas announcement to the stockholders. Some months ago the last dollar of bonded indebtedness was paid off and considerable money has been plowed back into the business, a number of improvements having been made.

In the past 10 years sound management has put The Castleton upon firm financial footing. P. J. Flaherty, the president, and the board of directors have done a remarkable job of clearing the hotel of debt, and today it is known over the eastern United States as one of the better hotels.

The notice of dividend said that within a year it is hoped a regular dividend policy will have been established.

Gigantic Moving Job At First National Bank

Pictured above is another gigantic moving job being done by Mooney Brothers, local contractors at the First National bank, Friday afternoon. The work normally would have required several days but due to the construction of a special piece of equipment it was completed in a matter of five or six hours.

In order to increase the capacity of the bank's vault, the old combination filing cabinet and vault which was built to accommodate 15,000 customers was removed to be replaced by the new one which will take care of 60,000 customers.

The construction company was compelled to fabricate a new piece of equipment named "a goose neck boom" to lift the 3000 pound vault which enabled the workmen to do the work without disturbing the work of the bankers which continued during the removal. The floor of the bank building had to be braced and the front doors of the building were removed to enable the workmen to bring out the vault and bring in the new one.

Composer Hunts Tones, Mushrooms

AGATE BEACH, Ore.—(INS)—While three concerts of his works were being played in New York recently, internationally-known composer Ernest Bloch was hunting new tones—and mushrooms—in the damp forests along the Oregon coast.

If a tonal idea trips through his mind in the silence of the woods, Bloch, who knows and loves mushrooms, will pause long enough to jot it down on a pocket sketch pad he always carries.

Sixty-seven years since he was born in Switzerland plus a jumpy

stomach and nerves have convinced the composer that he wants a peaceful place to work.

He composes leisurely and is now working on an important piano-orchestra work. Innumerable sketches precede the final form. "Israel" took four years. He wrote "Schelomo" in three weeks, but the Hebrew melodies had been in his head for years.

Bloch composes on a Steinway grand littered with sheets of music. Wife Marguerite has learned to keep out of the way when the master wishes.

Pope Sylvester II is credited with the invention of clocks in 996 A. D.

Around Hollywood

By JOHN TODD

International News Service Staff Correspondent

HOLLYWOOD, Dec. 13.—Marshall Thompson looked a trifle green when he sat down to the luncheon table and he said:

"I've just had a really rugged experience. I went flying with Dick Simmons and he really took me for a ride."

"You can't imagine what it was like. He did about everything possible with that plane. It was an open cockpit ship and sometimes when I looked down there was nothing between me and the earth. It was rather terrifying."

Runs Into Pilot

A few minutes later, as I was leaving the M-G-M commissary, I saw Simmons, who is one of Hollywood ace flyers. He piloted many a ship "over the hump" during the war.

"Dick," I said, "Marshall tells me you took him for quite a ride."

"I sure did," Dick replied, "I did it for his own good. He's had a sudden craze for flying and he's been asking everybody around town to take him up. Some of the guys he's asked aren't too hot as pilots. I was afraid maybe one of the would take him up and they might crack up."

Once Is Enough

"So this time when he asked me I said, 'You're sure you want to fly?' Marshall said, 'I sure do.' So I took him over to the field and we got in a fast two place job after I'd strapped him in good and shown him how to use a parachute."

Then we went up and I did everything that that plane could do. I looped the loop, barrel rolled, flew upside down. In brief, I gave the ship the works.

"Marshall's knees were wobbly when he got out. I don't think he'll

DAILY CARE KEEPS
CLOTHES IN TRIM

A few minutes of care every day will make any man's suit look better and save an extra pressing. It is just as easy to hang it up as it is to drop it on a chair. The correct hangers for coats and trousers and an aid to having the suit always in good shape.

Always brush a suit before putting it away. Be sure to get the dust out of the folds and corners. A good clothesbrush is more effective than a whisk broom because the whisk only hits the high spots.

The coat should be hung square—on broad, wooden hangers which are shaped to conform to the shape of the shoulders. It helps the coat to retain its shape if the top button is fastened. At times it is necessary to put the coat on the back of a chair but the coat should be pulled into shape over the chair corners. Try not to hang the coat on a hook or nail for any length of time because it loses its shape and acquired new creases. If a hook must be used, hang the coat from the loop at the back of the neck.

Trousers retain their crease and keep their shape better if they are hung upside down in hangers with clips or a regular trouser hanger. If these hangers are not available, the trousers may be laid over the cross-bar of a wire hanger. To prevent a sharp crease, place a piece of cardboard or thick paper over the crossbar. Another way to save on pressing is to alternate the wear of two suits on successive days. This allows the wool material to regain its original shape because of its natural elasticity. Wrinkles will fall out if given a change.

DAIRY ABOUT THE SAME,
POULTRY DOWN IN 1948

In considering the outlook for agriculture next year, milk production is expected to be about the same as this year.

Little change is expected in the number of cows or production per cow. Exports may drop somewhat, but butter is expected to increase. The net income of dairymen probably will be smaller because of higher production costs.

Hen numbers on January 1, 1948, are expected to be slightly below a year ago.

Should the present program to reduce laying flocks to 400 million hens on January 1 be fully effective, hen numbers would be about 10 per cent under last year's figure on the same date.

Poultry and eggs are expected to be strengthened by short supplies of red meat next spring and summer.

Farmers are likely to raise fewer chickens in 1948 than in 1947 because of the anticipated unfavorable egg-feed ratio next spring.

Net income to poultrymen may be less in the year ahead because of increasing production costs, particularly costs of feed.

Farm management specialists and agricultural economists suggest keeping the hen houses well filled with high-producing birds. Rigid culling is in order. They also consider it good business to raise the normal number of pullets next year and urge that they be started early.

The word "moon" is thought to have come from the words, to measure, the moon being a measurer of time.

Will Take 25 Years
For Russia To Make
Good On Promises

By WILLIAM KERWIN

(U. S. Staff Correspondent)

WASHINGTON, Dec. 13.—(INS)—

A former Commerce Department official predicted today it will take Soviet industry at least 25 years to make good its promises to the Russian people on food, shelter and consumer goods.

Ernest G. Ropes, ex-director of the department's Russian section, made the assertion at a meeting

of the National Council for the Prevention of War.

Ropes said there are many impediments to the development of Russian industry, the greatest of which is a transportation bottleneck which will hinder steel production for many years.

He asserted that even the present plans of the USSR provide for only a little more than one pair of leather shoes per person per year as the objective for 1950.

He declared:
"Barring importation so far against Soviet foreign trade policy, it seems inevitable that the Russians will have to wait many years

for the long-promised abundance of consumer goods."

Ropes said it would take years of hard work, expansion of planted farm areas, and a large program of rebuilding plants to supply minimum requirements of the people for food and feed.

Wadham college, Oxford, England, was founded by Nicholas Wadham of Merfield, Sussex, and Dorothy his wife. The college building was begun in 1610, the society being founded by letters patent from James I in 1612.

Christmas Morning—Exciting To Everyone!

Mother and Dad get just as big a thrill out of those toys for the children as they do themselves. In fact we suspect sometimes that the reason our Toy Department is so popular is because the "grown-ups" themselves have such fun browsing around and selecting gifts for the "children."

But we love it. Christmas time is the one season of the year when we let down our hair too and really get a bang out of the latest toys and games. We know you'll want to come in and take your time—making those all important selections. So come early and leave late. You'll enjoy every minute of it. The prices too are right for your budget—increasing your Christmas joy—especially these days of rising prices.

'Canes Post Second Victory, Defeat Erie, 37 To 22

Douglass Cagers Have Easy Time Nailing Win

Janacone Tops Scorers With 12 Markers; Davis Stars For Lakers; Red And Black Spurt To Win Handily In Final Frame; Butler Next For.

Speared by young Jimmy Janacone, the New Castle High basketball team, hung up its second win of the current season, at the Washington High gym last night as a capacity crowd looked on. The score was New Castle 37—Erie Strong Vincent 22.

Coach Bill Douglass since last Tuesday smoothed out the "Red Hurrle" and they looked tremendously improved, but still miss the old sparkplug Don Black, out with a broken finger. Don Spears and Wayne Gray are providing the impetus and doing a grand job during Black's absence. Wayne Fullerton, Jr., playing his second varsity game at center shows improvement and kicked in with seven of the points.

Janacone-Davis High
New Castle led the scoring for the Douglassmen with 12 of the 37 points, on five field goals and two fouls. Bob Davis a sub forward for Erie had 12 points for the Lake Erie crew to tie Janacone. In fact Erie was never in the game until Mr. Davis entered in the dying seconds of the first half and flipped in a field goal, the second that Erie had been able to get through the stolid New Castle defense.

New Castle led at the first period 11 to 5 after a slow first period and at halftime 15 to 11. The third period closed 26 to 19 and the final 37 to 22. The game was tied up twice at 3-3 and 17-17. Erie never had the lead.

Coaches Empty Benches
Coach Douglass emptied the bench of subs last night running in seven reserves. Erie half of the tries, 5 out of 10, while Erie was 8 out of 16 for a 500 foot average also. Davis had six of the seven field goals made by Erie.

New Castle will play its third pre-league game here next Tuesday evening meeting the Butler High Golden Tornado.

In a thriller-diller preliminary game the New Castle Hawks defeated the New Castle High Heralds 35 to 32.

Midland Whips Shenango, 45-38

MIDLAND, Pa., Dec. 13.—Coach Eddie Nahas' hard-luck kids dropped their third straight contest here last night, gamely battling the stronger Midland Leopards to the utmost but going down to a 45-38 loss.

Elks Seeking Second Triumph

Local Flippers Hosts To Greenville Moose Quint At George Washington

Coach Paul Morrison's B.P.O.E. 69 quintet will be gunning for their second triumph of the season tonight at the George Washington high floor when they oppose the Greenville Moose outfit. A prelim between the reserve lineups of the two lodges will precede the main event.

Hitting their stride against the Butler Moose last week, the locals are hoping they have at least found the form that means victories. In their first three encounters they Geneva and Youngstown colleges. Morrison will be counting upon the floor prowess of the Pitzer brothers, Bob and "Fran," Tom Carey, Vince Kelly, Bob Jackson, Bus Davis, Hank Koszala and others.

The Elks split with the Moose last year in a pair of tilts.

Baxter, Pozza, Moran On Card

Three Lawrence County Boxers To Appear On Siegel-Janiro Doctet

Russell Baxter, local middleweight, and Frankie Moran, New Castle welterweight, in addition to Bill Pozza, Ellwood City heavyweight, will box on the Meyer Siegel vs. Tony Janiro card in Youngstown, December 18, according to Promoter Al Zill.

Baxter will fight Johnny Komol of Waynesburg college in a four-rounder, and Moran will meet Johnny Johnson of Youngstown, who has not lost a fight since tossing his gloves into the pro ring. Two weeks ago in New York, Siegel defeated Bill Poli, and Tuesday night he knocked out Joe Bennett in five rounds.

East Brook Wins Its Third Straight

East Brook high school's tall Eagles continued as the only unbeaten class "B" school in the county last night as they pasted Slippery Rock, 48-20, for their third win in a row. The Brooks third win in a row. The Brooks previously walloped the same team earlier at the Rocket court, 61-18.

Clarence Ruthrauff's lads had too much height and savvy for the invaders, leading 26-9 at halftime. The "Big Three"—Patterson, D. Smith and B. Smith again showed the way, tallying 17, 10 and 8 respectively.

House League Season Opens

Last night at the "Y," two games were played to open the House league this year.

In the first game the Wings handed the G.I. Shines their first defeat, by a score of 35 to 31. Fair, Appel, and Toscano were the high men for the winners, hitting the hoops for 29 points between them. Bender and Ross held the scoring honors for the losers.

The second tilt found the Rebels breezing over the Redskins by a margin of 35 to 28. McConnell and "Lee" McCombs were the big guns for the victors, while Pitzer and J. Mitchell starred for the losers.

Tuesday two more games will be on the card. At 6:30 the Safety Five vs. the East Side Shamrocks, and at 7:30 the New Castle Business college will play the Forest A. C. The games will be played on Tuesdays and Fridays.

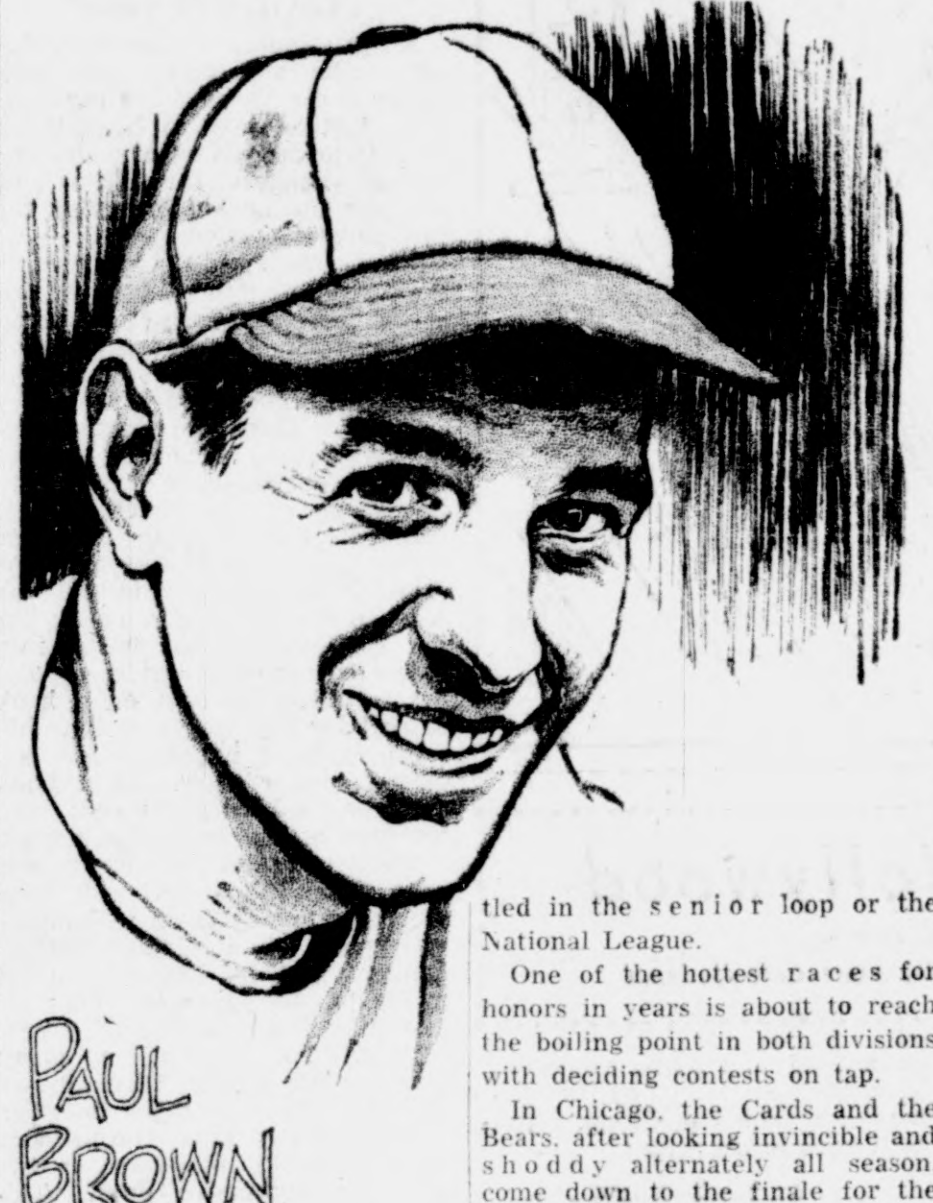

Two Loop Games At Arena Monday

There will be two more city-county league games at the Arena floor on Monday evening. At 7:30 o'clock the Shenango "Y" and Eagles club tangle, and at 9 o'clock the Bessemer Legion plays the Forest A. C.

A correction in the paper Friday, it will be the Shenango "Y" and VFW in the first game at the Arena floor December 29 prior to the Westminster-All Star Optimist game, the announcement last night read Bessemer vs VFW.

Cleveland Favored To Retain Title; NFL Contenders In Showdown Scraps

For the second time in the history of the All-American Conference (in fact both years it has been in operation) the Cleveland Browns will meet the New York Yankees for the loop crown.

The site is Yankee Stadium in New York and the time is Sunday afternoon.

Coach Paul Brown's western kingly will again be the favorites to cop the toga—mainly on the strength of the fact that the slim little genius of football has a definite Indian sign on the East—nervous, never having lost to them in the two years.

The Browns came mighty close once this season, trailing 28-0 in New York, but they came back strong to salvage a tie in the game and send Yank rooters away shaking their noggin at the jinx that seems to ride with each meeting between the two AAC powers.

Sanders Ailing
Brown stock has soared with the announcement that the Yankees

Philadelphia's Eagles have their backs to the wall in their vital scrap with Green Bay in the Quaker City. If they lose they must concede the Eastern tag to the Pittsburgh Steelers who have finished their season, but if they should win a play-off is necessary with the Sutherland crew for the diadem.

Naturally Jock and his lads will be hoping for a Packer victory which would erase the necessity of another bruising game. The Rooney men are battered, with ace Johnny Clement still on the shelf, and the extra rest to prime for the championship play-off.

Other NFL pairings find Boston at Washington and the New York Giants opposing the Rams in Los Angeles.

Lowellville Tops Bessemer, 45 To 32

Bessemer High played good basketball for two periods last night at the Bessemer floor, but this was not enough to stop a bigger Lowellville team from taking a 45 to 32 verdict. The Ohioans were paced by Williams and Grist with 28 of the points between them.

August Anderson was the Bessemer standout with 17 points.

After leading the first period, 15 to 4, the Lowellville team found the going tougher in the second period to lead by only 21 to 18 at the half, and 27 to 24 at the third period. Bessemer weakened in the final period to be outscored 18 to 8, after trailing 32-26 with four minutes to go. Mercer plays at Bessemer Tuesday.

Pulaskis Meet Rankin Sunday

K. P. "Big Five" Will Play First Game At Home Floor Sunday, Fast Prelim

Coach Al Gonet and his K.P. "Big Five" will be playing before a home crowd at the K.P. Hall Sunday for the first time this year. They will meet the strong Deltas of Rankin, Pa. There will be a prelim featuring the Pulaski Cubs and a good local team at 2 o'clock.

The "Big Five" victors over the Butler BISC and Youngstown Motors in the first two games, will be after their third win of the current season. "We will have our strongest possible lineup available," Gonet stated. "We expect to win."

Rankin Fine Team
The Rankin team is made up of former high school and college stars, and will give the locals a tough afternoon. A capacity crowd will no doubt pack the K. Pulaski Hall for the battle.

Gonet will probably start—Cooper and Rea at the forwards, Zubkovsky at center, and Kelly and Wenda on the guards, it was indicated.

Feller May Go To Mayo Clinic

CLEVELAND, Dec. 13.—(INS)—Bob Feller, Cleveland Indians' ace pitcher, may go to the Mayo clinic at Rochester, Minn., this winter for diagnosis of a lump that has appeared over the ribs of his right side.

Cleveland friends of the mound star, who currently is taking it easy at his father-in-law's vacation lodge at Eagle River, Wis., say that Feller will let the doctors operate if necessary so that he can be in top shape next season.

Feller reportedly traces the lump, as large as a walnut, to an injury he suffered last summer at Philadelphia when he fell while pitching.

In favoring a stiff knee which resulted from the fall, Feller strained his side. The belief is that Feller tore a cartilage over a rib and that adhesions forming during the healing process caused the lump.

Illinois Stands Firm On Barring Graziano

CHICAGO, Dec. 13.—(INS)—The ban against Rocky Graziano, middleweight boxing champion, from further fighting in Illinois remained in force today despite the National Boxing association's recent poll favoring his re-instatement.

The Illinois State Athletic commission reaffirmed its stand yesterday in barring the fighter and severely criticized the NBA poll.

The boxing commission defied the NBA and issued a statement which referred to the poll as "biased" and "partial from its inception" and called the national body "a factor in dragging the sport into the gutter."

The poll, by a slight margin, favored permission for Graziano to fight in NBA territory despite his war record, which showed him imprisoned on an AWOL charge and dishonorably discharged from the Army.

The commission statement said: "We will not permit one who has refused to fight for his country to fight for American dollars in the state of Illinois. Desertion from the armed forces of one's country in time of war can not be dealt with too heavily—certainly it should not be condoned."

"The youth of the country can no longer look to the National Boxing association for upholding American principles of patriotism."

DEMARAT TAKES LEAD AT MIAMI
MIAMI, Fla., Dec. 13.—(INS)—A blistering 64, six under par, vaulted Jimmy Demaret of Ojai, Calif., into the lead of the \$10,000 Miami open golf tournament as play moved into the third round today.

Demaret who is the leading money winner of the year coupled his 64 of yesterday with a first round score of 68 to give him a total of 132, three strokes ahead of his closest followers.

Freddie Haas of New Orleans, the first day leader, slipped badly, going two over par for a 72 after a first round score of 65 for a total of 137.

Bill Barker, local pro, fired a low of 64 in the final two days of the Miami open golf tourney. He previously had scores of 75 and 68.

BIG ANTLERLESS DEER KILL SEEN

HARRISBURG, Dec. 13.—(INS)—Between 50,000 and 75,000 antlerless deer were expected to be killed in Pennsylvania today during the special one-day hunting season.

The state game commission predicted more than 200,000 mounds would invade hunting areas in quest of does and hornless bucks. The regular 12-day-long buck season closed yesterday.

The antlerless deer season opened in all counties except Fulton where sportsmen petitioned the commission to abrogate the one-day hunt.

Shooting hours were from 7 a. m. to 5 p. m. Hunting was limited to licensed hunters who failed to bag their limit of one deer during the buck season.

Game Commissioner Seth Gordon estimated nearly 500,000 antlerless deer were in the state. Some counties alone hoped to kill off 5000 of the animals which reportedly have caused heavy damage to crops in certain areas, he added.

Ike Williams

Whips Pellone

NEW YORK, Dec. 13.—(INS)—New York boxing fans are convinced today Ike Williams, the lightweight titleholder, is a real champion.

The dusky Trenton, N. J., warrior, making his first appearance in Madison Square Garden since he annexed the crown, went out of his class last night and won a unanimous decision over Tony Pellone, rugged New York welterweight, in a non-title, ten-round bout.

Williams, a 5 to 9 favorite, made it a one-sided fight after the third round and cut up Pellone's features considerably. Ike weighed 139½ to 145½ for Pellone.

A crowd of 12,089 paid \$55,114 to see the bout.

BIG NINE THREAT

CHICAGO, Dec. 13.—(INS)—Michigan's "dark horse" basketball team finally swings into action tonight at Ann Arbor against Western Michigan.

The Wolverines are considered a sharp threat for Western Conference honors and will be watched closely by the other Big Nine clubs in their season's debut.

Michigan supporters figure their untested quintet has the material and power to match, on the basketball court, the Wolverine football team's championship.

Five Teams Tied In Bicycle Grind

CLEVELAND, Dec. 13.—(INS)—Five teams were tied for the lead as Cleveland's international six-day bike race ground into its last day at Public Hall.

Tied with them in mileage are Francis Grauss and Angelo DeBacco; Stanley Bransgrove and Sam Rinella; Emilie Ignat and Henri Surbatis; and Alfred Letourneur and Jules Audy.

Six spills marred last night's jamming but no riders were seriously hurt. Bransgrove and Rinella, who were paired Thursday night after their former partners dropped from the race, staged a hot rally to tie for first place after trailing by eight laps.

STOCK MARKET TREND UPWARD

NEW YORK, Dec. 13.—(INS)—
Stocks enjoyed a quiet and modest
advance in today's abbreviated
session. Many issues held at pre-
vious closing while elsewhere small
fractional improvement was ef-
fected.

The oils added to recent ad-
vances with a few at 1947 highs.
Pacific Western and Mission were
the most active with the former
breaking out with a four-point
climb.

On the upside most of the day
were U. S. Steel, Bethlehem, Ameri-
can Telephone, American Can,
Du Pont, Southern Ry., Chrysler,
Westinghouse and Western Union.
General Motors trailed along with
some of the coppers, rubbers and
automobiles.

Bonds held firm. Curb stocks
idled with prices steady. Cotton
was unchanged to a shade lower.

Political and religious differences have often been marked by the form of hats. The Puritans, of the reign of Charles I adopted the steeple hat, high and narrow, with a broad brim, untrimmed. The Cavaliers wore a lower and broader crown, with a feather stuck on one side.

The highest place in the world that is inhabited by human beings, is the Buddhist cloister of Hame, Tibet, where the priests live at an altitude of 16,000 feet.

**Foot And Mouth
Disease Battle
In Mexico Fails**

WASHINGTON, Dec. 13.—(INS)—A group of southwestern cattle men told President Truman Friday that the government's program to eliminate foot-and-mouth disease in Mexico has "failed after 10 months" and that the United States meat supply is menaced.

C. E. Weymouth, president of the Texas and Southwestern Cattle Raisers Association, headed the delegation which urged that the United States renew negotiations with Mexico for a more effective program.

The group told Mr. Truman that after an expenditure of 31 million dollars by this country "we are further away than ever from control or eradication of the disease."

**Mikolajczyk And
Armour Confer**

WASHINGTON, Dec. 13.—(INS)—Stanislaw Mikolajczyk, fugitive Polish peasant party leader and former Polish premier, conferred with Norman Armour, assistant secretary of state for political affairs, on conditions in Poland. Mikolajczyk told newsmen that

he reported to Armour on "the fight of Polish people for democracy and freedom."

The former premier said he wanted primarily to establish contact with the state department. He said he will confer later today with other European opposition party leaders who have established an international peasant party headquarters in the United States.

Mikolajczyk will leave for Chicago for a one-day visit and then return to New York to resume work on a book and a series of news articles he is writing.

**Longer Wearing
Woolens Possible**

PHILADELPHIA, Dec. 13.—(INS)—The powerful new electronic microscope may eventually give the nation longer wearing woolen clothes.

That possibility was unfolded before the Electron Microscope Society of America yesterday by two members of the National Bureau of Standards.

The experts, Gloria Seeman and Max Swerdlow, told how they examined the deterioration of tiny fibers of wool under an artificial "wearing machine."

Their research showed three stages in the wear and revealed that the second "corrugated" layer of the fiber best resists scaling and chemical attack.

The new microscope is capable of magnifying anything up to 100,000 times its actual size.

Truman Says Operation Of Marshall Plan Must Be Guaranteed For Four Years

WASHINGTON, Dec. 13.—(INS)—President Truman told former Gov. Alf Landon, of Kansas, Friday that Congress must guarantee operation of the Marshall plan to aid Europe for at least four years.

Landon, GOP presidential candidate in 1936, was in Washington to attend tomorrow night's gridiron dinner and called at the White House to "pay my respects to the president."

Landon said he discussed with Mr. Truman the European aid program and expressed the opinion that whatever is done in implementing the Marshall program ought not to be done on a temporary or yearly basis. Landon said he told Mr. Truman:

"Those countries are sticking

their necks out and the lives of their citizens are at stake. They ought to be able to know what they can count on in the way of a policy in this country over a reasonable number of years."

The former Kansas governor told newsmen on leaving the White House:

"The president said he agreed with me; that the program ought to be at least four years or it wouldn't do any good. I asked if I could tell you that and he said yes."

President Truman's Marshall plan message to Congress now is being completed and he will discuss it Monday with congressional leaders in a White House conference on the whole general European relief situation.

KEMP'S BALM**
FOR COUGHS DUE TO COLDS

Miners in Saxony discovered some ore which had the appearance of copper ore, but it was not copper. It was a white metal so hard and tough that it could not be hammered into useful articles. Believing Old Nick had cast a spell over the ore, the miners called the

metal "Kupfer-Nickel," meaning "Old Nick's Copper." When a Swedish scientist named Cronstedt experimented with this ore he came to the conclusion that it contained a metal previously unknown to men, and called it "Nickel."
